3320-PC MAX VIEW SHOWN  
\*Available November 1st 2015

## ProMaster City MAX VIEW Partition Now Available!

Ranger Design is promoting a new series of partitions made of polycarbonate and thermoformed ABS. These partitions offer maximum visibility and provide a tighter fit, which helps climate control.

The composite partitions are available now for the ProMaster City, both the solid partition (3310-PC) as well as the MAX VIEW Clear top partition (3320-PC).

Composite partitions for the Metris and the Ford Transit Connect will be launched at a later date. Watch this space!

## Quick Ship orders

### Product Stock Commitment

Ranger is committed to carrying sufficient stock of all of 300+ products offered via Quick Ship, so as to be able to ship at least 5 of any item within 24 hours.

## Standard orders

### Shipped in 5 business days

Ranger is committed to carrying sufficient stock of all of our 800+ products to be able to ship at least 15 of any item within 5 business days, and to be able to ship orders of up to \$25,000 cost within 5 business days. Orders exceeding 15 of any item or exceeding \$25,000 cost may require longer than 5 business days. In this case, you may choose to have a partial shipment within 5 business days.

## New price list

### October 1<sup>st</sup>, 2015

#### Have you seen your updated

#### October – December price list?

Have you tried the Quick Quote Tool? This is a tool where you can produce a quote for you customer within minutes, just type the part numbers and quantities into the form.

## 6010 Update

### Construction Change

We have recently changed the construction of the 6010 from a welded construction using bolts. This helps us deliver the consistent products you have come to expect. Look for the change on your next order!

## Catalog Error

### ProMaster Catalog

The layout guides are incorrect, as well as the 1505-PH has two bars instead of the three shown. Please see the correct catalog here:

## Plus Nut / Riv-Nut Tool

As of November 1<sup>st</sup>, 2015, we will add one tool to every order that is not going to the default ship to. For other orders, we will send these out free of charge on request.

## MAX RACK Elbow

### Important Update

Several customers have reported that the cast elbow of the Max Rack (which the handle slides into), have fallen off while driving. We have identified the primary root cause to be when a HEX nut is used in assembly, instead of the Nylon Locknut. It is recommended that you verify Max Racks that have been installed previously to ensure the right fasteners were used. To ensure correct assembly in the future you will notice that the elbow will now come with the correct bolt already loosely assembled in the part.

## 2013 Transit Connect

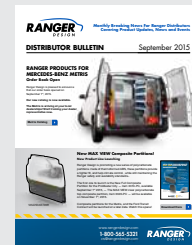

### Product is now obsolete

Product for the 2009-2013 Transit Connect is now obsolete, and will only be available through special order with a 20-day lead-time.
