

RANGER DESIGN WINS 2016 NTEA PRODUCT INNOVATION AWARD

New Max View Partition with Clear Polycarbonate Top Takes the Award

Ranger Design Inc. is pleased to announce that the Max View safety partition has won The Work Truck Show Product Innovation Award for 2016. The award goes to the product at the show deemed "most innovative" by a panel of trade media editors and fleet managers. The partition was chosen from a field of 113 innovative products that were on display at the NTEA Work Truck Show, which took place from March 1st – 4th, 2016 in Indianapolis, Indiana.

Statutory holiday

Please take note that production, shipping and offices will be closed on March 25th, 2016. All orders placed as of March 21st, will have a six day lead time.

The Max View Partition Series

As of March 14th, 2016, we have
**3 models of Max View partitions
available:**

- ▶ The **Metris** Max View composite partition # 3320-MM
- ▶ The **Transit Connect** Max View composite partition # 3320-TC
- ▶ The **ProMaster City** Max View composite partition, # 3320-PC

The benefits of this new series are:

- ▶ Maximum visibility (180 degrees rear view)
- ▶ A tighter fit to the vehicle (helping maintain climate control)
- ▶ A more spacious feeling cabin area

Full Composite Partitions

Full (non-window) composite partitions for the Metris and Transit Connect are not available at this time.

Safety Partition Protects Driver!

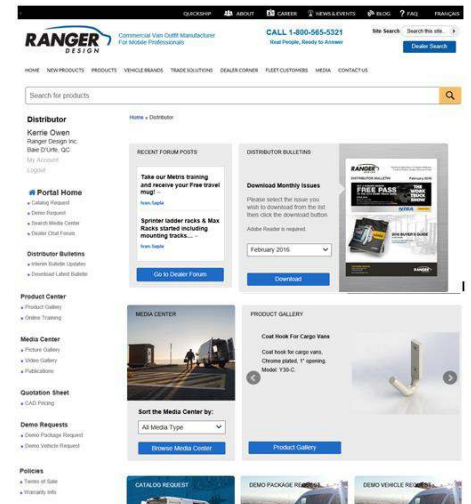

There's nothing like a real-life incident to illustrate the importance of having a safety partition. Read the story of a customer who's happy they had a Ranger Design contoured cargo van partition installed in one of their service vehicles. The van was involved in a head-on collision which dislodged a heavy tool box in the cargo area. The partition stopped it from entering the cab area and injuring the driver. They now recommend the installation of Ranger Design safety partitions to others.
