## LAYOUT GUIDES

# HOW TO USE THE LAYOUT GUIDE

## INSIDE ROOF HEIGHT

To determine the maximum shelf height that can be used in the van.

## PARTITION DEPTH

This indicates the space taken up by our partition for this vehicle. Please note that this measurement is determined by the partition that encroaches the most. Some partitions may take up less space. Take note that this measurement may not necessarily be on the floor.

## DOOR OPENING

To determine where shelving will land in relation to the door opening. Use this measurement to determine the space available for drawer units.

## DIMENSIONS IN RED

These dimensions indicate unique measurements for each wheelbase. Use red dimensions to determine the exact wheelbase of your van.

## FLOOR SPACE

This area is usable floor space but due to curvature of the van there may not be the same available area at the roof. Please measure actual van for specific measurement at roof.
